Clorox™ Two-Tier Steam Sanitizer

When it counts, trust Clorox™

Add confidence to your cleaning routine with the new Clorox™ Two-Tier Steam Sanitizer. It provides powerful, natural steam that reaches deep to quickly sanitize your kitchen tools, utensils, dish rags, reusable water bottles, toothbrushes and more.

Kill 99.999% of bacteria in minutes with steam*

Easily kill 99.999% of bacteria at the push of a button. With just 3.4 oz. of water or less, you'll create hot, sanitizing steam that penetrates fabrics, cracks, and crevices to refresh your essential household items. Even your kitchen sponges will be sanitized and ready for use in minutes.*

Adjustable and easy to use

Simply fill the water reservoir, load items, and press start. It automatically turns off when sanitizing is complete. Adjustable two-tier racks make it easy to sanitize taller items such as kitchen brushes and utensils.

Time-saving and convenient

The Clorox Two-Tier Steam Sanitizer is faster and uses less water than your dishwasher's sanitize cycle. For delicate plastic or painted items, there's a delicate cycle that steams away bacteria in less time.

Space-saving storage

After sanitizing, everything nests together for easy storage so there's no lost pieces or parts. It easily fits in your cabinet.

Versatile with so many uses

It's a must-have tool for busy families who need a safe and reliable way to keep kitchen and household items sanitized. It makes a great gift for fitness enthusiasts who carry reusable water bottles to the gym or home cooks who need to keep sanitized kitchen tools handy.

**When used as directed.*
