

# OHDOKI

## THE HANDY AND OH! PAIR FOR PLEASURE

Ohdoki is a Norwegian technology company that develops industry-leading hardware and software to bridge the gap between fantasy and reality for penis and vulva owners around the world. The company brings joy and excitement to individuals and couples, enabling new sexual experiences that encourage open, healthy conversations about sexual desires to achieve ultimate satisfaction.

[Oh!](#) is the world's most advanced, versatile and discreet vibrator, utilizing soundwaves to enable individuals to create their own vibrational patterns with more flexibility and customization. [The Handy](#) is an interactive stroker offering endless possibilities of sexual enjoyment, engineered to combine the best of hardware and software to reimagine the sexual experience for penis owners.

Link the devices to one another with your partner, whether in the same room or different time zones, and experience *pleasure in the palm of your hand*.

### CONNECTED PERSONALIZED PLEASURE

- Ohdoki devices are designed to be gender-inclusive, allowing seamless pairing between any combination of devices—whether The Handy with Oh!, Oh! with Oh!, or The Handy with The Handy.
- The Pleasure Pair can be controlled online from anywhere around the world through the companion app.
- Create different vibrations with Oh! and stroke length with The Handy, while both devices' easy controls allow for customizable rhythm.
- Connect to the Internet for remote-controlled partner sessions (or adult media synchronization) in **complete privacy**.
  - No accounts needed. No personal data collected.
