Clorox Medium Room Turbo Air Purifier

Introducing Turbo

The Clorox Turbo line of air purifiers offers an effective solution for rapidly improving indoor air quality with its innovative Turbo cleaning speed. The Turbo setting maximizes airflow to swiftly eliminate odors, smoke, dust, pollen and other pollutants. With the Turbo Timer, you can easily activate Turbo mode for a preset duration of 10, 20 or 30 minutes. Simply choose your preferred time and let the purifier do the work. Once the timer ends, the air purifier will automatically return to its previous cleaning speed.

3 Stage 360° Filter

Experience 360° air purification with a 3-layer system designed to capture allergens, particulates, viruses and bacteria. The pre-filter traps dust and pet hair, the True HEPA filter captures 99.97%* of allergens and particulates while reducing viruses and bacteria**, and the activated carbon filter minimizes VOCs and odors for fresh air.

Ideal for Medium-Sized Rooms

Pulling in air from all directions cleans rooms up to 5 times per hour when used in a room 215 sq. ft. and one time per hour when used in a room up to 1,000 sq. ft.****

Quick Cleaning with Turbo Timer

Clear the air and remove odors in minutes after cooking, during wildfires or when allergen levels are high. The Turbo Timer improves air quality by increasing airflow to quickly reduce smoke, dust, pollen, mold spores and more.

Customize for Any Room or Setting

Choose from 4 fan speeds, with the lowest speed offering quiet air purification that's as low as 24 decibels. Adjust display brightness (on, dim or off) to your preference. A screen lock ensures your settings stay put.

*99.97% effective in capturing particles as small as 0.1 microns that enter the True HEPA filter. **Reduction of viruses and bacteria as air passes through the True HEPA filter. Does not kill viruses or bacteria. Reduction will potentially vary by fan speed, humidity level, room shape and size, variations in air quality, and/or placement of the unit in the room. No guarantee all the air in a room will pass through the True HEPA filter.

***Cleaning effectiveness and filter life vary by air quality.

**** Based on independent CADR testing, when operating on highest fan speed. Suggested room size assumes closed room with 8 ft. ceiling.

Easy-to-Change Filter with Notification Light

Convenient filter light illuminates when it's time to check or change the filter. Twist off the lid to access filter for easy replacement.
