WATER SOLUTIONS

FACT SHEET

Redefining Filtration for the Home with Liv EZ™

Get cleaner, safer drinking water you can trust right at home with Elkay's Liv EZ built-in filtered water dispenser. Great for remodel projects, the Liv EZ water dispenser allows for an easy and cost-efficient install since it is battery powered with no electricity needed. Install it anywhere in the home where there's a water line for instant access to filtered water.

Bring Elkay's trusted filtration home.

Elkay, the brand trusted in high-traffic environments such as schools and airports, is now available at home. Relax, knowing our filtration is third-party certified to reduce lead, microplastics, and more.

Commercial-grade filtration for your home.

While most water filters used in homes focus solely on taste, they don't target the underlying contaminants that are harmful to your health—the ones Elkay filters eliminate. Bring trusted, commercial-grade filtration into your home for both safer and tastier water.

Convenient, elevated hydration.

A sleek design, this in-wall water dispenser installs easily, fits beautifully into any decor, and improves your home's flow with instant access to filtered water, exactly where you want it.

About Elkay

For more than 100 years, Elkay® Manufacturing has been making innovative products and providing exceptional customer care. We take pride in offering plumbing products that make life easier, inspire change and leave the world a better place. Headquartered in Downers Grove, Illinois, Elkay is American owned and operated, providing thousands of jobs that support our families and communities. We are proud to be America's No. 1 selling kitchen sink company, as well as a leading manufacturer of award-winning water delivery products, including the ezH2O® bottle filling station.
