

## PlanetBox® Arctic Chill Freezable Squeeze Packs

Lunchtime just got cooler with **PlanetBox Arctic Chill Freezable Squeeze Packs**. These versatile vessels work as both reusable snack containers and ice packs. You can use them straight from the fridge or freezer, depending on your needs. Fill with yogurt, applesauce, juice, or water and pack as is, or freeze to help keep the lunchbox chilled. As they thaw throughout the day, foods become perfectly chilled snacks, offering a smart alternative to separate ice packs.

Designed for everyday ease, the wide openings make filling and cleaning simple (no funnel required). The tethered caps stay attached so they won't get lost between school and home. Each 4-ounce pouch is perfectly portioned for kids, and the reusable, dishwasher-safe design provides a practical swap for disposable snack packs. Sold as a set of two for \$14.95, PlanetBox Arctic Chill Freezable Squeeze Packs are an easy, mess-free upgrade for streamlining back-to-school lunch prep.
