

CLEAN WATER MACHINE

AquaSana's new Clean Water Machine removes up to 99.99% of 78 contaminants, including lead, PFOA/PFOS, and microplastics, at the push of a button. Sleek, stylish, and compact, the Scandinavian-designed countertop system uses the power of electricity to instantly filter 15X more contaminants than the leading pitcher filter. Simply plug it in where you need it, no installation required.

Available for purchase at [AquaSana.com](https://www.aquasana.com), starting at \$199.99

Maximum Contaminant Removal

Tested and certified to remove up to 99.99% of 78 contaminants, including lead, "forever chemicals" PFOA/PFOS, asbestos, microplastics, pesticides, mercury, chlorine, and more.

Selective Filtration

Claryum® technology removes 15X more contaminants than the leading pitcher filter while retaining beneficial minerals, including calcium, magnesium, and potassium.

Zero Installation

Simply plug in for high-powered filtration and clean, better-tasting tap water at the push of a button.

Flexible Design

A compact and convenient solution for any room with an outlet. Instantly transform tap water for healthy hydration wherever your family needs it – the kitchen, home office, pantry, or by the dog bowl. A dorm room essential, the Clean Water Machine also makes a great gift for students.

Eco-Friendly

Each replaceable cartridge last for 300 gallons or up to 6 months – the equivalent of more than 2,200 plastic water bottles.

Innovative Design

The Clean Water Machine's compact design is small enough to keep on your countertop, yet powerful enough to deliver filtered water – fast.

Water You Can Trust

WQA tested and certified to NSF/ANSI Standards 42, 53 (includes P473), and 401.

Removes up to 99.99% of 78 contaminants
